Introduction of materials and products

01

「Solid Wood」

Solid Wood products showcase the unique grain patterns and colors of wood, each item being one-of-a-kind, adding natural beauty.

We offer personalized customization services, allowing for different shapes, sizes, and designs according to customer preferences, ensuring each award is unique.

02

「MDF Wood Boards」

MDF Wood Boards have a smooth surface and consistent density, suitable for various processing techniques such as cutting, carving, and painting.

MDF Wood Board awards can be customized in various shapes, sizes, and designs according to customer requirements, adding unique personalized elements to events.

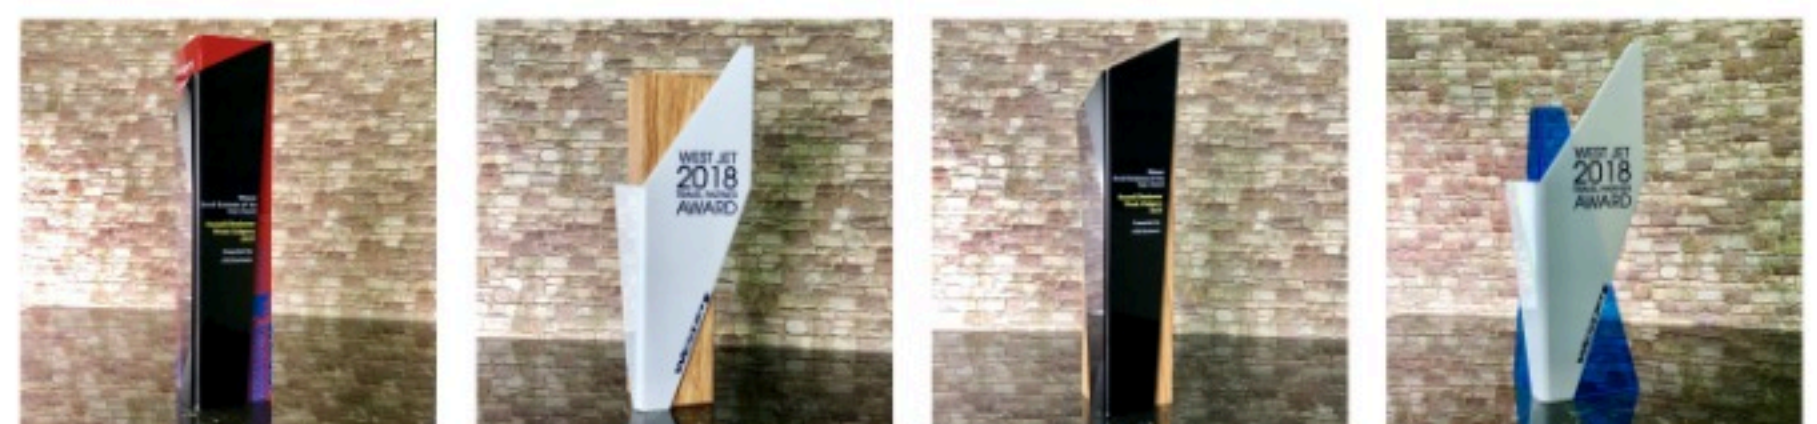

03

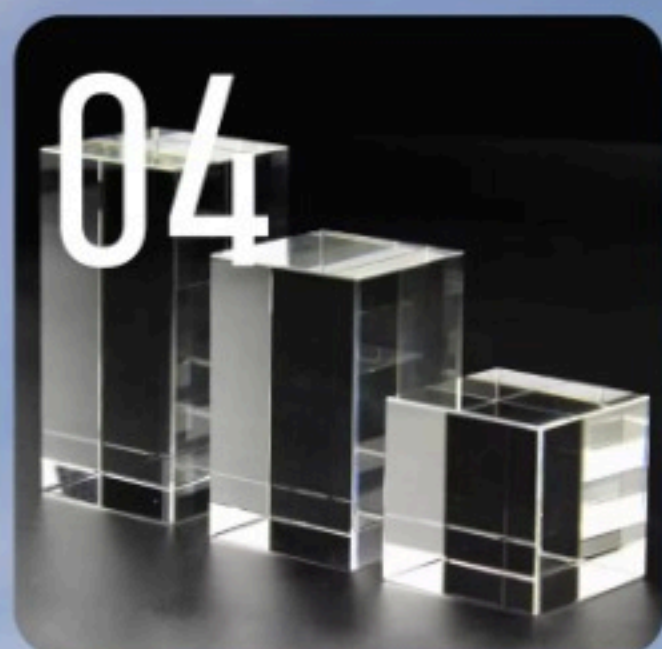

「Acrylic Sheets」

Acrylic sheets offer exceptional transparency and optical clarity, allowing for vibrant colors and high-resolution printing.

Acrylic sheets can be customized with various finishes, including frosted, mirrored, or colored, to create unique and eye-catching designs.

「Crystal Glass」

Crystal trophies exude a noble and elegant appearance with exquisite craftsmanship, serving as a proud symbol of honor for the winners. The material boasts outstanding luster and transparency, emitting a dazzling brilliance when illuminated by light, captivating all eyes.

「Aluminium Sheet」

Aluminium trophies boast a modern and stylish aesthetic, making them perfect for recognizing achievements in contemporary environments. The diverse designs of aluminium trophies allow for intricate detailing and customization to meet the specific requirements of each award. They offer excellent value for money, providing high-quality craftsmanship and visual impact.

「Green Edge Glass」

Green Edge Glass is an environmentally sustainable material that meets environmental requirements, making it suitable for environments with strong environmental awareness. Glass trophies can be personalized according to customer needs, including engraving, carving, printing, and other processes, to meet the requirements of various activities and occasions.

PROCESSING METHOD

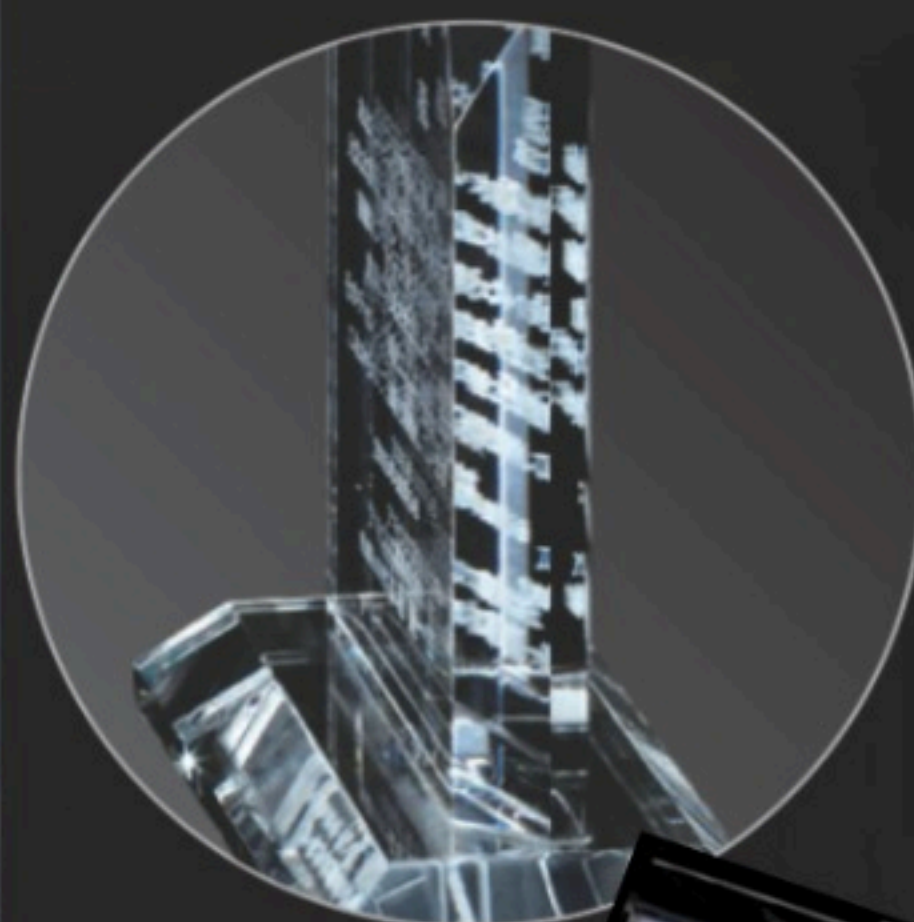

WE SPECIALIZE IN DELIVERING HIGH-QUALITY NAME ENGRAVINGS QUICKLY, THANKS TO CONSISTENT PRODUCTION METHODS EMPLOYED IN OUR OWN WORKSHOPS AND CONTRACTED FACTORIES. LET US INTRODUCE THE PROCESSING TECHNOLOGY WE'VE DEVELOPED.

Sandblasting Carving

We achieve finely carved, frosted glass-like engravings on glass products by applying high-pressure sand particles.

Each piece is meticulously crafted by skilled artisans, exuding a warm, handmade finish. Additionally, we offer special services such as deep carving and color filling (additional charges may apply).

Inner laser engraving

Using the latest laser processing technology, we engrave characters and logos onto glass by creating a dense cluster of dots within the glass. This technique results in a unique three-dimensional effect, where the engraving seems to float within the glass, adding to its allure.

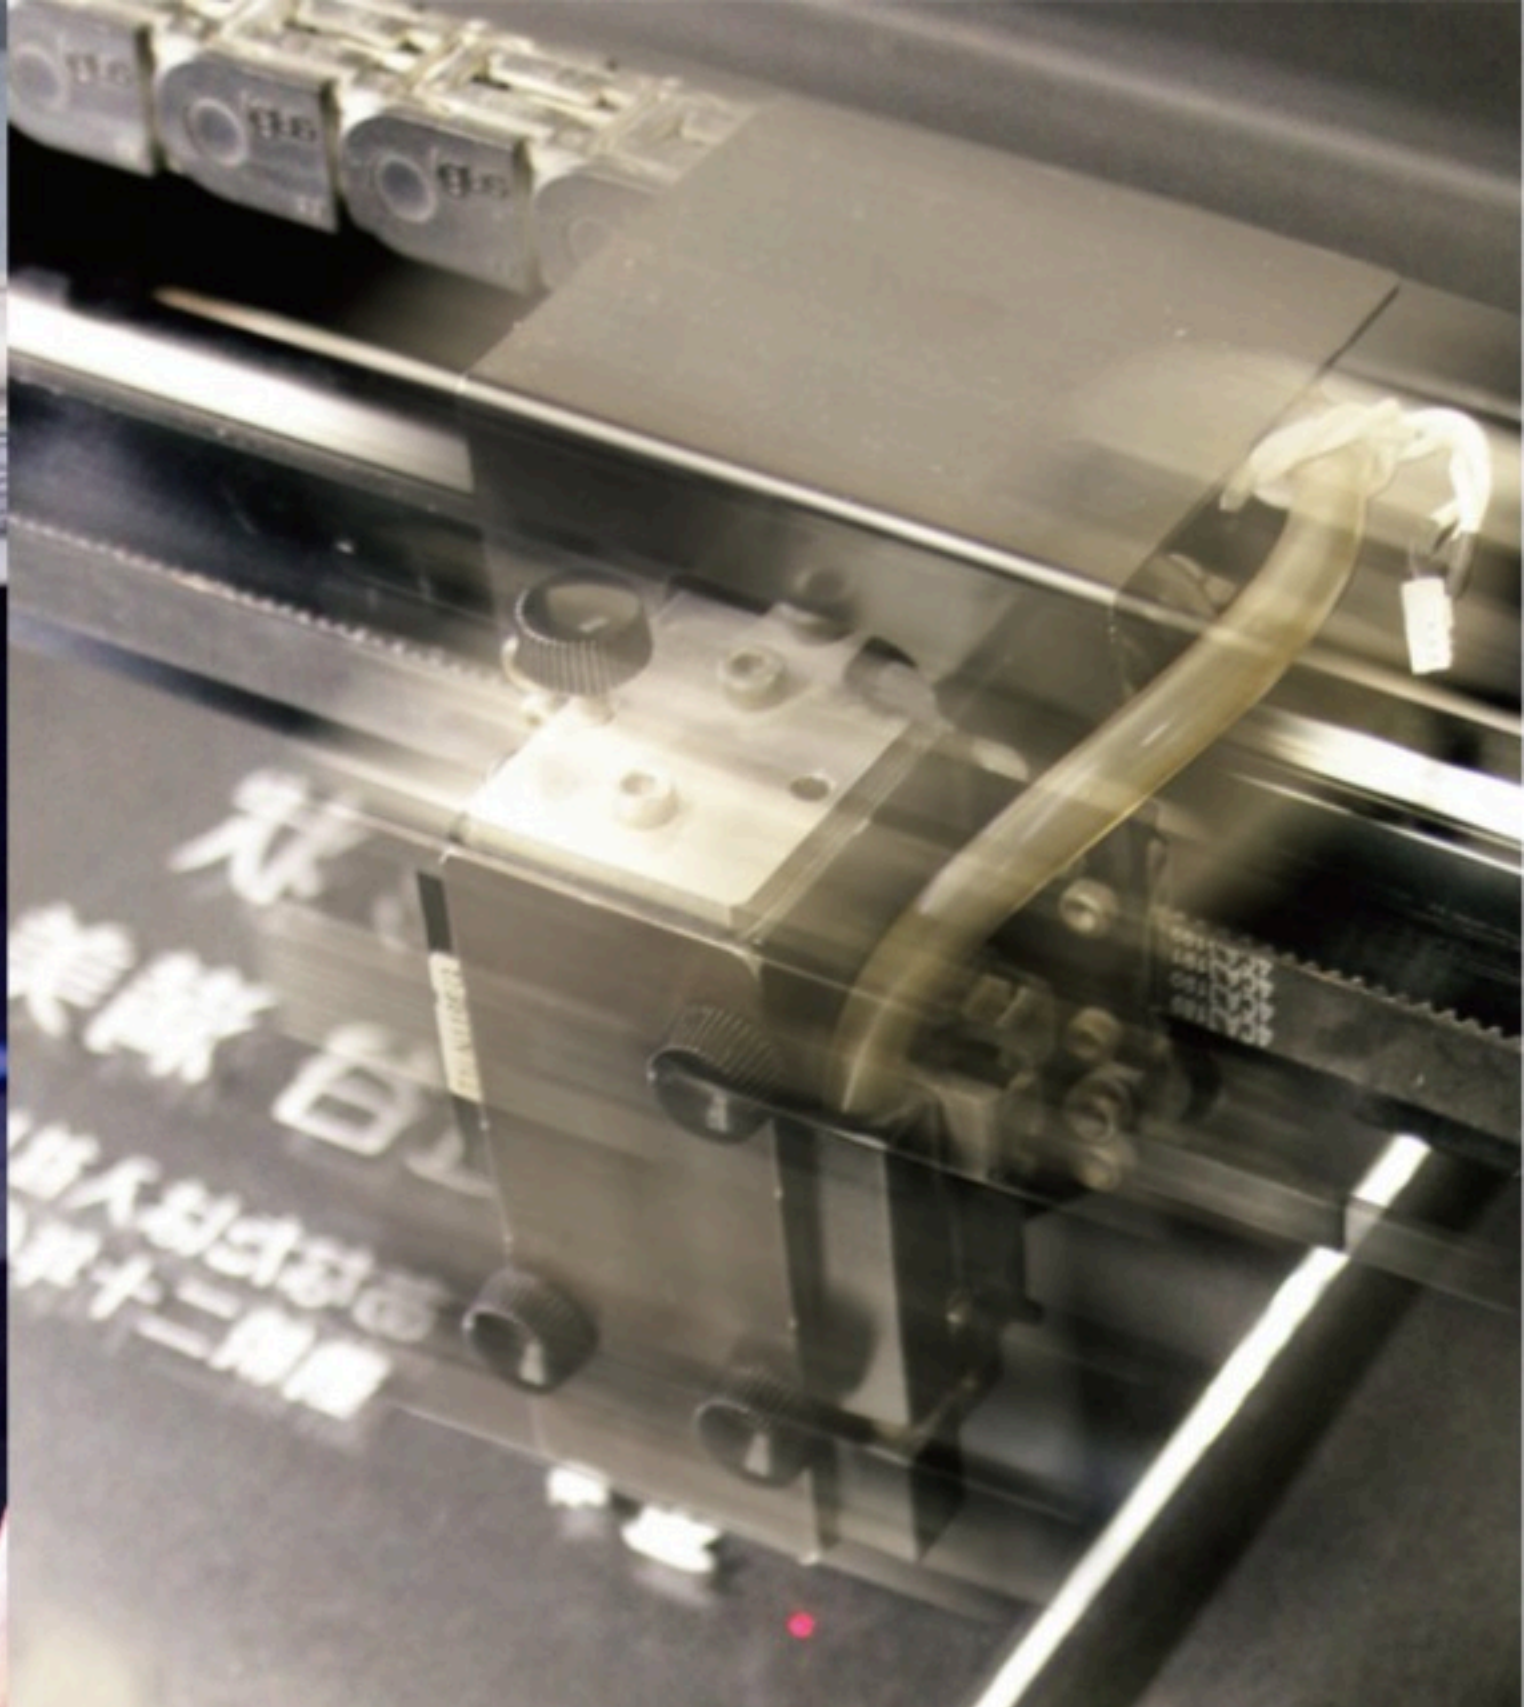

Direct Print

We directly apply UV full-color printing onto the material, enhancing its beauty with vibrant ink colors and transparency.

This process results in vivid hues that beautifully stand out through the material, adding a striking appeal.

Laser Engraving

We utilize laser light to etch text and illustrations onto durable materials like acrylic, wood, bamboo, and metal.

Despite being monochromatic, this method allows for intricate expressions such as gradients and fine-lined shapes, enabling precise and detailed artwork.
